<body>
<h2>&lt;p&gt; Tag</h2>
<p> <code>&lt;p&gt;</code>tag stands for "paragraph"</p>
<p>paragraph tag is used to group a block of text or content that forms a logical paragraph in
a webpage.</p>
```

<h2><small> Tag</h2>

<p>The <code><small></code> tag in HTML is used to define smaller text, reducing font size.</p>

<body>

<h3>

Example

</h3>

<small>

My name is Gayathrichiluvuri

</small>

</body>

<h2><strike> Tag</h2>

<p>The <code><strike></code>in HTML is used to display text with a strikethrough effect, visually indicating that the text within it is no longer accurate or relevant.</p>

<strike><p>My car is blue.</p></strike>

</body>

</html>

<p> Tag

<p>tag stands for "paragraph"

paragraph tag is used to group a block of text or content that forms a logical paragraph in a webpage.

<small> Tag

The <small> tag in HTML is used to define smaller text, reducing font size.

Example

My name is Gayathrichiluvuri

<strike> Tag

The <strike>in HTML is used to display text with a strikethrough effect, visually indicating that the text within it is no longer accurate or relevant.

~~My car is blue.~~
